Summer – 15 EXAMINATION Model Answer

Page No: 1/21

Important Instructions to examiners:

1) The answers should be examined by key words and not as word-to-word as given in the model answer scheme.

2) The model answer and the answer written by candidate may vary but the examiner may try to assess the understanding level of the candidate.

3) The language errors such as grammatical, spelling errors should not be given more importance. (Not applicable for subject English and Communication Skills).

4) While assessing figures, examiner may give credit for principal components indicated in the figure. The figures drawn by candidate and model answer may vary. The examiner may give credit for any equivalent figure drawn.

5) Credits may be given step wise for numerical problems. In some cases, the assumed constant values may vary and there may be some difference in the candidate's answers and model answer.

6) In case of some questions credit may be given by judgment on part of examiner of relevant answer based on candidate's understanding.

7) For programming language papers, credit may be given to any other program based on equivalent concept.

11.He should make report in bus stand.	
12.He should check documents for concession in fare.	
13.He should help to disabled person to get in or exit from the bus.	
14.He should ring the bell as necessary.	
15.In case of accident, he should provide first aid to passengers.	
16.At any place, where hamal (Collie) is not present, he should help the passenger to carry	
the luggage inside the vehicle.	
the luggage mode the venicle.	
b) List any four types of permits and explain any one permit.	04
Answer: Types of Permits. (Consider any four types of permit, each type carries ¹ / ₂ marks.	0.
Explanation of any one type of permit carries 2 marks)	
1. Stage carriage permit	
2. Contract carriage permit	
3. Private service vehicle permit	02
4. Goods carriage permit	02
5. National permit	
6. All India Tourist permit	
Stage Carriage Permits:	
• State Transport Authority announces scheme for grant of stage carriage permit from time to	
time, depending upon the requirement of buses on different route of the city.	
 These permits are issued under section 72 of Motor Vehicles Act, 1988. 	02
-	02
• The permit holders can operate their bus under their allotted routes for picking up passengers	
from one place to another.	
All private stage carriage buses come under this category	
Contract Carriage Buses Permits:	
• This is the most common type of permit used for hire and reward purpose.	
• The permit holder can operate under a contract with his client for a fixed destination within	
state or outside the state.	
• For this an agreement should be executed between the clients and the operators and the list of	
passengers should also be available with the driver of bus.	
• The permit holder cannot pick passengers other than those mentioned in the list.	
 Such types of buses are also known as Chartered Buses. 	
• These permits are issued under section 74 of Motor Vehicles Act, 1988.	
• The applicant has to apply on form PCA along with other formalities.	
Temporary permit	
• A temporary permit is issued by STA under Section 87 of Motor Vehicles Act, 1988 to	
transport vehicle for a limited period, enabling the vehicle to go outside the state for the	
following reasons:-	
1. For the conveyance of passengers on special occasions such as to and from fairs and	
religious gatherings, or	
2. For the purposes of a seasonal business, or	
3. To meet a particular temporary need, or Pending decision on an application for the	
renewal of a permit.

Summer – 15 EXAMINATION <u>Model Answer</u>

Page No: 6/21

Goods Carrier Permits:

- Such permit is granted under Section 79 of the Motor Vehicles Act, 1988, to a goods vehicle operating within the state.
- Permits granted to a particular vehicle for carrying a particular load has to be plied for that particular area only.

National Permits:

- National permits are issued to goods vehicles to enable them to go outside the home state.
- National Permit is issued for a minimum of four continuous states (including the home state).
- For obtaining such permits the maximum age of a particular vehicle should not exceed 12 years. However, maximum age in case of a multi-axle vehicle should not exceed 15 years.
- For the issue of National Permit, applicant has to apply on form 46 and 48 along with other formalities

All India Tourist Permit (AITP):

- This permit is given to luxury buses which have white colour with a blue ribbon of five centimeters width at the center of exterior of the body and the word 'Tourist' shall be inserted on two sides of the vehicle within a circle of sixty centimeters diameter.
- A tourist permit shall be deemed to be invalid from the date on which the motor vehicle covered by the permit completes 9 years in the case of Motor Cab and 8 years where the motor vehicle is other than a motor cab, unless the motor vehicle is replaced by another, the latter vehicle shall not be more than 2 years old on the date of such replacement.
- The seating layout shall be two and two or one and two or one and one on either side, all seats facing forwards.
- The Vehicles should also have other facilities like public address system, drinking water, push full back seats, fans, curtains, a separate driver cabin etc.
- The applicant has to apply on form 45 & 48 along with other formalities. Every motor vehicle or motor cab under the Authorization Certificate issued under these rules shall exhibit the words 'All India Tourist Permit' on the back of the motor vehicle in contrasting colours, so as to be clearly visible

c) Explain types of vehicle insurance. Answer

Motor vehicle Insurance is an agreement between the insurer and the insured wherein the insurer provides financial cover for the vehicle and the insured in return pays specific premium annually. It provides protection for your vehicle against the financial loss and liability that could result as a part of accident or theft.

Following are the two types of vehicle insurance

Comprehensive insurance - Third Party Insurance is a statutory requirement. The person or property other than the vehicle and vehicle owner are safeguarded under this insurance. Personal injuries and personal vehicle damages will not be covered by this policy. For two wheeler vehicles we can take this policy for life time. For other vehicles this policy has to be renewed annually. This is the cheapest available motor vehicle insurance policy. This policy can be renewed two months in advance of its expiry.

5. Movement of traffic -	
The main potential problems are traffic jamming caused by buses entering and leaving the	
depot,	
6. Volume of operations.	
7. Site should not be much away from city town or village.	
8. Availability of water, electricity, telephone, post office etc.	
9. It should be free from fare of flood water logging.	
10. The location should be away from tank bed.	
11. High Tension lines should not pass over the site	
b) What are the factors considered in buying new vehicle?	04
Answer: Factors to be considered for buying new car are as follows (any 04 points, 01 mark each)	
a) Checkout the features and quality of new vehicle –	
• Checkout the features offered and additional optional fittings, which suits your lifestyle.	
• Checkout the quality factors of new vehicle like mileage, fuel storage capacity, option of	
using alternative fuels like CNG/LPG, also safety features like airbags, antilock braking	
system etc	
b) Ex-showroom price and on road price-	
• There is huge difference between on-road price and ex-showroom price.	
• Ex-showroom price is the basic price which does not include Insurance, RTO registration	
charges, extended warranty if any and sometimes the Municipality Road tax etc. After	
adding all these you will get on road price.	0.4
c) Use of vehicle	04
• Select the vehicle on basis of for what purpose you are buying a new vehicle (Personal use,	
Commercial use, expected seating capacity etc.)	
d) Inspecting the vehicle	
• Before purchasing the vehicle inspect the vehicle for whether the features are as per your	
demands or not.	
e) Gather expert reviews –	
• Read expert comments and reviews on the vehicle, you are buying.	
• Do the comparative study with other same class of vehicles to checkout for added benefits.	
• Enquire about extended warranty as well as regular service contract.	
f) Test drive the vehicle –	
• Analyze and be sure that the vehicle has characteristics that you are looking for.	
• Inspect and feel carefully all the interior and exterior such as bonnet, of vehicle.	
• Checkout your vehicle thoroughly including braking, electrical, steering system etc before	
driving at home.	
g) When and where to buy	
• Vehicles prices hike up and down often, Ex- Showroom price & tax applicable can also varied as per location hence it's important to decide when and where to buy a vehicle.	
h) Closing the deal –	
Vehicles prices hike up and down often, so negotiate the price of the vehicle. Remember the Actual	
price of the car may be far less than the Advertised price so bargain as much as possible.	
price of the car may be far less than the Advertised price so bargain as much as possible.

c) List any four documents used in Transportation. Explain Truck history card.	04
Answer: (Consider any 04 documents, each document carries ½ mark)	
Documents used in Transportation are -	
1. Log Book	
 Trip operational sheet (TOS) Vehicle ledger 	
4. Truck history card	02
5. Monthly Operational Performance Statement (MOPS)	02
6. Goods consignment note	
7. Trip sheet	
Truck History Card:	
The performance of truck is evaluated from the truck history card this card gives detailed	
information about the mileage, tax paid, no. of repairs etc.	02
Thus the truck history card helps in deciding whether scrap the truck or not.	
d) Explain the working of MSRTC.	04
Answer: Maharashtra State Road Transport Corporation (MSRTC) is the state run bus service	
of Maharashtra, India with approx.16, 000 buses which ferry 7 million passengers daily on 17,000	
routes. It is the third largest bus service provider in India and serves routes to towns and cities	
within Maharashtra and adjoining states.	01
It employs the three tire system for maintaining their buses as Central Workshop, Divisional	-
Workshop and Depots. The work distribution at different levels is as follows-	
i)Central Workshop-	
Body building work on new chassis is done in the 3 Central Workshops i.e. Pune,	
Aurangabad and Nagpur on Ashok Leyland and TATA chassis. The major activities carried	
out at central workshop are as follows	01
• Reconditioning of engine, gear box and differential,	
• Work pertaining to major accidents,	
• Body building, tyre retreading, and	
• Work pertaining to retrieval of spare parts etc are	
ii) Divisional Workshop-	
MSRTC is having 32 Divisional Workshops located at the Divisional Headquarters	
wherein vehicle maintenance is carried out as follows.	01
• Six monthly docking.	01
• RTO passing.	
• Assembly overhauling.	
• Accident Repairs.	
iii)Depot: MSPTC is having 248 Depot Workshops for daily maintenance and symptometry of the	
MSRTC is having 248 Depot Workshops for daily maintenance and running repairs of the	
buses. The main jobs carried out are as follows.	01
• Preventive Maintenance - Engine Oil Change, Running repairs, minor repairs	01
etc.	
By-Monthly Docking.

e) Describe the importance of GPS in traffic management.	04
 Answer: Importance of GPS in traffic management is as (<i>Credit shall be given to any other suitable answer</i>) 1. Traffic management is the most important function for any public transport organization. This involves scheduling and planning of routes and at the same time ensuring that the buses run as per the schedule. This becomes difficult in bigger cities where the number of buses involved is very high and all these buses perform repetitive trips. The failure of management in ensuring timely operations has resulted in the bus system becoming unpopular and shift in traffic to the personalized modes of transport. 2. However GPS based Intelligent Transport Systems provide the possibility of monitoring the movement of vehicles at an affordable cost. Management of a bus fleet essentially involves ensuring timely arrival and dispatch of buses. It also involves ensuring that the bus touches the entire route points as per schedule. 3. In the conventional system some sort of vehicle tracking is carried out manually by posting traffic controllers/timekeepers at some important points. This manual tracking doesn't give 100% coverage, it totally depends on human alertness and is thus prone to errors, it is very expensive, it is not tamper-proof, and the data generated in the form of entries in the registers do not provide themselves easily for computer processing. 4. A vehicle tracking system for enforcing the schedule of the bus, this data also provides important inputs for decision making. The system helps for calculation of exact distance travelled in a given time span, calculation of the speed of the bus at a given location, analysis of the time taken by the bus to cover certain distance. 5. It becomes a very powerful tool in case the Transport Corporations are hiring private buses, as computation of the distance travelled, based on which payments are made becomes totally objective. 	04
f) Give the full form of CRRI, VRDE, PCRA, ARAI.	04
Answer:	
1) CRRI : Central Road Research Institute	01
2) PCRA: Petroleum Conservation and Research Association	01
3) CIRT: Central Institute of Road Transport	01
4) VRDE: Vehicle Research and Development Establishment	01
4. a) Attempt any THREE of the following:	12
i) What preparations will you make to sell your vehicle?	04
 Answer: Preparation for selling of vehicle: 1. Preparation – When people come to buy car, they will probably make up their minds to buy it or not within the first few seconds. This is based on their first look at the car. Before you advertise 	-

your car for sale, make sure it looks clean and attractive. This goes beyond just taking it to	
the car wash.	
i) Wash and vacuum the car.	
ii) Make sure that vehicle is free from abnormal sounds, dents, scratches.	03
iii) If necessary, make low cost repair or replacement of parts.	05
iv) Wipe the brake dust off the wheel covers and treat the tyres with a tyre gloss	
product.	
v) Thoroughly clean the windows (inside and out) and all the mirrored surfaces.	
vi) Wipe down the dashboard and empty the ashtrays.	
vii)Keep all maintenance records ready to show prospective buyers.	
viii) If necessary, do the servicing.	
2. Documentation –	
Following documents are required while selling the vehicle -	
i) Registration certificate	
ii) Tax certificate	01
iii) Insurance certificate	01
iv) PUC certificate	
v) NOC certificate	
ii) State any four advantages smart card.	04
Answer: Following are the advantages smart card (any 04 advantages, 01 mark each)	
1. The Smart-card driving license is electronically issued driving license.	
2. The Smart-card driving license is Tamper-proof.	
3. The Smart-card driving license is of a plastic card embedded with a microprocessor chip	
having 64KB memory.	
4. All details about the driving license holder (photograph, thumb impression, signature) are	
recorded on the computerized database and chip.	
5. One of the major benefits of Smart-card driving license is cutting down of time required in	04
issuing a driving license.	04
6. The applicants visiting the RTO office with forms and documents may get the new driving	
license on the same day.	
7. Driving license database is created and different reports are available.	
8. Easy to carry in pocket.	
9. Smart card is durable.	
iii) Write names of any four leading automobile manufacturers in India with their product	04
name.	
Answer: Automobile industries in India with their products. (<i>Consider any four</i> automobile manufacturers with their two and ducts. <i>Image</i> ageb)	
manufacturers with their two products – Imark each)

Products – EON, Santro, i 10 1.1 IRDE, i10 1.2L Kappa, Accent, i 20	
iv) Explain any four basic elements in transport management.	04
Answer: Basic elements in transport management (Any 4 points - each point carry 1 Mark)	
1. Market potential:	
It includes - Type of goods/ passengers, Period of use, Probable competition	
2. Selection of vehicle: It depends upon Type of load, Class of passenger, Type of service.	04
a. Depending upon load to be carried, road conditions, working conditions, type of goods to be carried etc. the appropriate vehicle to be selected. i.e. If a vehicle is to be selected of transporting large loads, the choice will be for high powered vehicles.	04
b. The selection of chassis length mainly depends upon the load to be carried and road	
conditions. MSRTC has preferred the buses with short length of chassis to run in Konkan

03

region: because the roads in that region are narrow and most of the konkan region consist of ghat section hence to take the turn, the buses with short chassis are preferable than ordinary buses.

3. Organization setup: Govt., Semi Govt., Private.

- 4. Legal compliance: Documents required as per MVA like
 - a. Registration certificate
 - b. Tax certificates
 - c. Insurance certificate
 - d. PUC certificate
 - e. Permits etc.
- 5. Policies of transport organization: Policies towards passengers and employees.

a. Policies towards passenger:-

- 1. Luxury service,
- 2. Concession Pass for students and senior citizen,
- 3. Express service on special route,
- 4. Night service on special route,
- 5. Vehicles for Special private Tours/Yatras/functions/ Educational tours on public demand,
- 6. Providing passenger amenities etc.
- b. Policies toward employees -
 - 1. **Bonus for employees** Bonus is compensation for the work that the employee has performed in addition to the employee's regular salary or wages for motivational purpose.
 - 2. **Overtime Allowances** Overtime allowance is admissible for work done in excess of one hour of the prescribed hours of work on any working day and includes work done on Sundays or any other holidays
 - 3. **Health insurance**: To provide the health insurance to the employee and his family to maintain healthy working atmosphere.
 - 4. **Free Travel packages:** The state transport undertaking like MSRTC provides such packages to their employees and their family for specific period per year.
 - 5. **Employee Training:** Transport organizations provide training to employees to upgrade their skills as per need.

b) Attempt any ONE of the following	06
i) Explain vehicle schedule and trip.	06
Answer:	
1. Vehicle scheduling:	
• It is a trip or trips assigned to be performed by a bus during a day.	
• Vehicle schedule fixes the conditions of the vehicle operation on a route throughout the day.	03
• Since the passenger low flow expresses the transport demand on the line for the entire day,	03
bus schedule give a picture of the movement of vehicles on the route.	
• The important aim of a bus schedule is to satisfy the demand for transport combined with	
efficient use of vehicle resources.	
2. Trip –	

• It means the journey between two terminals i.e. from start of travel to the final destination for

b) Write the procedure for freight calculation for hiring truck.	04
Answer: The freight charges are calculated after considering all the expenses incurred with the	04
transportation of goods. Mostly operating charges and fixed charges are taken into account while	
calculating the freight.	
a) Operating charges.	
1. Diesel cost = Number of kilometer X Cost of 1 litre diesel	
Kilometer per liter of vehicle	01
2. Trip and garage expenses.	01
3. Contract charges.	
4. Tyre wear cost can be calculated per Kilometer.	
5. Road toll tax	
b) Fixed charges	
1. Tax per trip.	01
2. Insurance	
3. Administrative charges	
4. Wages of drivers and cleaners.	
5. Depreciation per trip.	
c) Additional charges	01
1. Hamali charges	01
2. Stationary charges	
Total operating cost = Operating charges + Fixed Charges + Additional charges	01

This will indicate the model and year of manufacture and number of owners; the tax paid to the insurance, expiry date can also be seen. 	
 Choose the truck supplier whose services are prompt and rates are economical. c) Explain any four factors considered while buying used car. Answer: Factors to be considered for buying a used car (<i>Consider any 8 points each point carry</i> ¹/₂ <i>mark</i>) – 1) Tyres: the condition of tyres its life and nature of wear must be noted. 2) Body: The condition of the body and paint must be checked. 3) Battery: The condition of battery is also essential before valuation because its cost is also high. 4) Rattling noise: Check noise level and its origin or source. 5) Engine: Starting qualities, good pick up, low fuel combustion, power output must be checked on road test. Check also engine oil pressure. Exhaust smoke will also indicate the condition of cylinder and working parts. 6) Running Condition: On the road test it is possible to know drive the mechanism such as clutch, gear box, universal joint, differential. The wear and tear can be seen on road test. 7) Registration and Tax payment: The vehicle R.C. book must be checked. This will indicate the model and year of manufacture and number of owners; the tax paid to the insurance, expiry date can also be seen. 8) Make and Model, Year: This can be seen from R.C. book but with experience it is possible to 	
 Choose the truck supplier whose services are prompt and rates are economical. c) Explain any four factors considered while buying used car. Answer: Factors to be considered for buying a used car (<i>Consider any 8 points each point carry </i>^{1/2} mark) – 1) Tyres: the condition of tyres its life and nature of wear must be noted. 2) Body: The condition of the body and paint must be checked. 3) Battery: The condition of battery is also essential before valuation because its cost is also high. 4) Rattling noise: Check noise level and its origin or source. 5) Engine: Starting qualities, good pick up, low fuel combustion, power output must be checked on road test. d) Explain the importance of vehicle navigation system.	04
Answer: Importance of vehicle navigation system are (any 04 points, 01 mark each)	
1. To locate vehicle –	
A vehicle tracking system enables the fleet operator to find out the location of the vehicle	
throughout the journey of the vehicle, against time. Most transporters use GPS to locate their	
vehicle.	
2. Fleet Management -	
GPS vehicle tracking system also helps the fleet owners to see the vehicle's current data like	
its mileage, speed, engine capacity, direction of travel etc. for the fleet owners to manage	
their fleets and improve their business strategies	
3. Vehicle Security-	
Vehicle tracking system can be used to protect their vehicles from theft. The system shows	04
the location of the vehicle and hence helps to recover your stolen vehicle.	
It is even possible to stop the vehicle's engine remotely	
4. Teens Safety -	
Vehicle Tracking System can also be used by the parents to ensure the safety of their teen-	
agers driving the vehicle.	
System gives you the report of where the vehicle went, its speed, how long it stopped and etc	
5. School Buses -	
Vehicle Tracking System proves beneficial for schools to track the bus locations. This	
system will be helpful to keep an eye on the movement of school buses.	
6. Apart from utilizing the data generated by the vehicle tracking system for enforcing the	
schedule of the bus, this data also provides important inputs for decision making.	
7. The system facilitates computation of exact distance travelled in a given time span,	
computation of the speed of the bus at a given location, analysis of the time taken by the bus	
to cover certain distance.	
8. It becomes a very powerful tool in case the Transport Corporations are hiring private buses, as	
computation of the distance travelled, based on which payments are made becomes totally	
objective.	
e) What factors are considered in preparing accident survey report? Answer: factors are considered in preparing accident survey report as below- (<i>Any 8 points- each</i>	04
<i>oint carry 1/2 Mark</i>) 1) General: Site, date and time of accident	
 Registration no. of vehicle involved in accident. Nature of Accidents: collision with or avoidance of overturning, other kind of accident other 	
than overturning.	
4) Primary Cause of accident: fault of driver or pedestrian, defective road surface, other cause,	
(ause of accident. fault of driver of pedestrian, defective foad surface, other cause, cause not know.	
Cause not know.	04
	04
5) Light conditions: Daylight, dusk, dark with good street light, dark with no street light.	
5) Light conditions: Daylight, dusk, dark with good street light, dark with no street light.6) Road condition: Straight, bend, intersection, flat, dry, wet, hill, concrete, earth road.	
 5) Light conditions: Daylight, dusk, dark with good street light, dark with no street light. 6) Road condition: Straight, bend, intersection, flat, dry, wet, hill, concrete, earth road. 7) Traffic condition: Dense traffic, light traffic, moderate traffic, controlled junction, 	
 Light conditions: Daylight, dusk, dark with good street light, dark with no street light. Road condition: Straight, bend, intersection, flat, dry, wet, hill, concrete, earth road. Traffic condition: Dense traffic, light traffic, moderate traffic, controlled junction, uncontrolled junction.

Commercial use, expected seating capacity etc.)	
 1) Inspecting the vehicle Before purchasing the vehicle inspect the vehicle for whether the features are as per your 	
demands or not.	
m)Gather expert reviews –	
• Read expert comments and reviews on the vehicle, you are buying.	
 Do the comparative study with other same class of vehicles to checkout for added benefits. 	
• Enquire about extended warranty as well as regular service contract.	
n) Test drive the vehicle –	
• Analyze and be sure that the vehicle has characteristics that you are looking for.	
• Inspect and feel carefully all the interior and exterior such as bonnet, of vehicle.	
• Checkout your vehicle thoroughly including braking, electrical, steering system etc before	
driving at home.	
o) When and where to buy	
• Vehicles prices hike up and down often, Ex- Showroom price & tax applicable can also	
varied as per location hence it's important to decide when and where to buy a vehicle.	
p) Closing the deal –	
• Vehicles prices hike up and down often, so negotiate the price of the vehicle. Remember the	
Actual price of the car may be far less than the Advertised price so bargain as much as possible.	
possible.	
b) Write the role of Automobile engineer in Transport organization	04
Answer: An Automobile Engineer is the real technocrat in automobile as well as transport industry,	
so he is required to play an important role as a responsible person as follows-	
(Any four points, each carry 1 mark)	
1. Automobile engineers as an authority have to perform different functions in the office of	
STA/RTA as licensing authority, registration authority, Taxation authority etc.	
2. In transport organizations, planning and scheduling various transport operations - Route	
Survey and trip planning, Scheduling of buses and Crews, 3. To maintain different records and its analysis.	04
 Traffic analysis and control. 	04
5. To adopt new technology and to introduce various improvement programs in new	
generation vehicle.	
6. To try for different means of fuel economy.	
7. To try to make vehicle more attractive, more comfortable and more reliable.	
8. He is required to carry out the research and impart drivers training and road safety aspects.	
c) Explain the role of ARAI in Automobile industry.	04
Answer: Automotive research Association Of India:-	
1. ARAI is co-operative industrial research association by the automotive industry with the	
Ministry of Industries, Government of India. The ARAI is located in the western part of	
Pune, Maharashtra established in 1986.	
2. The Role of the Association are to provide research & development in automotive	
engineering for industry, Product design and development, Evaluation of automotive	04
equipment, Testing, Certification and Calibration services to the industry for developing	
safe, reliable and eco-friendly & user-friendly vehicles / components / products, Carry out

 test and calibration in accordance with stated methods and customer's requirements and to Harmonize Indian automotive standards to global standards 3. In order to meet the development requirements of Industry, several facility and competence build-up projects are completed. These are Engine Design/Simulation Software Installation, Development of bi-fuel CNG kits, new techniques and software capabilities in Noise, Vibration, Harshness Analysis, Vehicle Crash Analysis, VDACS software for chassis dynamometer control, Particulate Measurement System and Digitally Controlled Load Simulation. 4. ARAI is only automotive engineering R&D institute in India to be awarded ISO 9001 Quality System Certification. 5. ARAI is the first Indian institute to develop HCNG (Hydrogen blended CNG) fuel engine 		
complying with EURO V standards for light commercial vehicles. (HCNG is greener than CNG and perceived as the ultimate alternative for fossil fuels. The engine has been developed for Tata Motors)		
d) What are the documents required to produce at the time of registration of new vehicle.	04	
 Answer: Documents required to produce at the time of registration of new vehicle. a) An application for registration of a motor vehicle in Form 20. b) Sale certificate in Form 21 given by delear; c) valid insurance certificate; d) proof of address - any one document e) Registration fees. f) original sale certificate from the concerned authorities in Form 21 in the case of exarmy vehicles; g) design approval from the Transport Commissioner in the case of a trailer or a semitrailer h) road-worthiness certificate in Form 22 from the manufacturers, Form 22-A from the body builders; i) customs clearance certificate in the case of imported vehicles along with the license and bond, if any: j) temporary registration, if any; k) 7/12 abstract in case of agricultural tractor & trailer for Tax exemption. l) Entry tax payment proof if any vehicle, body or tanker is purchased from outside the state. m) Octroi receipt if registering in municipal limits. 	04	
e) Write any four objectives of taxation.	04	
Answer: Objectives of taxation (Any 4 –each point carry 1 Mark)		
1. Raising the revenue of government.		
 2. Economical growth of state and nation. 3. Reduction in unemployment. 	04	
4. Reduction in regional disparities.	04	
5. Distributional justice to all the people.

Summer – 15 EXAMINATION Model Answer

Page No: 21/21

f) What are the factors considered for valuation of vehicle?	04
 1) What are the factors considered for valuation of vehicle? Answer: The process of determining the current worth (value) of a vehicle is called as valuation. There are many techniques that can be used to determine value, such as subjective and objective. Following are the factors considered for valuation of vehicle - 1. Know the current market value of vehicle 2. Calculate the depreciation of vehicle based on market value. for this consider – i)Make, Model and Variant E.g. Make – Maruti-Suzuki, Model - Swift Variant - VDi ii) Month and Year of Manufacture e.g. June 2012 iii) The city in which the car was registered. 3. Calculate the depreciation of vehicle based on usage and aging. 4. Analyze the mechanical condition and damage occurred with respect to Body, Chassis, and Aesthetics, Engine condition, vibrations, noise etc. 5. Consider the Tyre condition and decide tyre cost. 6. Kilometers driven – this can be find out from the odometer on the dashboard. 	04
